

VEJRHØJ
THE NAUTIC COLLECTION

” We have merged wood, stainless steel, sapphire crystal glass and high quality Swiss made movements with a distinctive design that draws inspiration from old navigational instruments. Still, we have maintained our commitment to the simplicity rooted in the Nordic design culture.

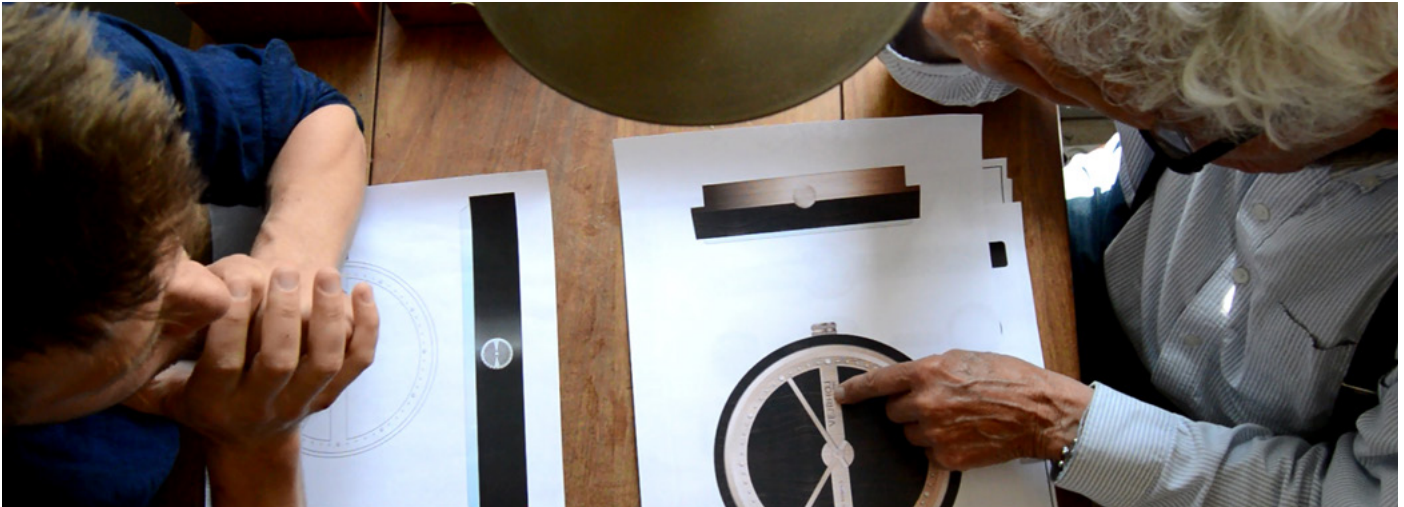

Janus Aarup, Founder, VEJRHØJ

CRAFTED FROM WOOD. INSPIRED BY THE SEA.

VEJRHØJ is founded by the young entrepreneur, Janus Aarup, who set out to create a collection of wooden watches based on his passion for design, craftsmanship and timepieces.

A craving for creation - the kind that goes across generations - brought Janus together with the grand old man of Danish design, Bo Bonfils. The result is the VEJRHØJ NAUTIC collection.
Crafted from wood and steel. Inspired by the sea.

Welcome to our new collection.
